**CITY SCHOOL BOARD.**—Very soon after 8 o'clock, last night, the Board was called to order, present: Edgar Snowden, Jr., esp., Chairman, and Messrs. Addison, S. F. Beach, J. S. Beach, Burke, W. F. Carne, Neale, Wheat, Whittington and Witmer and the City Superintendent.

The minutes of the last meeting were read and approved.

The chairman from the special committee on the status of the old Court House property, reported progress.

Mr. Witmer, from the Committee on Finance and Accounts, reported as correct the bill of Harlow & Bros., for balance of rent to July 1st, \$29.16, and said bill was passed.

Mr. J. S. Beach (Mr. S. F. Beach not having as yet come in) reported that he had, with Messrs. S. F. Beach and Burke, conducted the examination of Mr. Hopkins, who was absent from the city, and that the school had passed a very creditable examination.

The Chairman, from the Committee on Snowdon School, made a similar report, stating that some deficiencies were observed, but that the examination was pronounced a very creditable one by the experts present.

The Superintendent then laid before the Board, the result of the examination of teachers held on Friday last, reading the questions asked, and making some explanations as to the manner of fixing the grades, &c. He also, stated that as the number of girls attending the public schools last year was smaller than it had been, he would recommend the election of assistant teachers for all the schools provisionally, with authority to himself or some committee or officer of the Board to employ and pay only as many as might be needed.

He then offered the following:

Resolved, That the salaries of the teachers of public schools in this city, be fixed, as follows:

Principals shall receive a yearly salary of five hundred dollars each and fifty dollars additional for each division exceeding three in their respective schools.

Vice-Principals shall receive a yearly salary of four hundred dollars each.

Assistant Teachers shall receive a yearly salary of three hundred dollars each.

There shall be added each year to the salary of each Principal, Vice-Principal and Assistant Teacher, on examination, the further sum of twenty-five dollars for each year he or she may have been continuously in the service of the Board, provided that no principal shall receive more than twelve hundred dollars, no vice principal more than eight hundred dollars, and no assistant teacher more than five hundred dollars; and provided further, that the salary of no teacher now in the schools shall be reduced during his or her incumbency.

He explained that his object was to effect a gradual increase of salaries, to avoid losing our best teachers, their pay here being less than that in any city in the Union. The resolution had been carefully worded so as to avoid any general increase for the present year, which he knew could not be afforded; its present effect would be only to divide fifty dollars to be saved on the salary of a new teacher to be elected to-night, between two of the principals.

Mr. Wheat thought the salaries had better be fixed from year to year, as heretofore.

The Superintendent said the plan he proposed had been adopted almost everywhere else; under it teachers could make some reasonable calculations for the future, and would be encouraged to remain at their posts. He was not tedious of the amounts named in his resolution; he only aimed at the accomplishment of two things; the retention of faithful teachers, and a gradual increase of their salaries to reward long service. He had no objection to the reference of the resolution to a committee.

Mr. Wheat moved its reference to a select committee of three, which was carried on a division, and Messrs. Wheat, Witmer and Burke were appointed said committee.

The Superintendent moved that the salaries of teachers and janitors be fixed as last year, except that no teacher newly elected should receive more than three hundred dollars, without the order of the Board, and that the money necessary to pay them be now appropriated, which motion was carried, after some opposition from Mr. Wheat, who was opposed to the proviso.

On motion of Mr. Wheat, the Board then proceeded to the election of principals and vice principals for white schools with the following result: Washington School, Theodore H. Ficklin, A. M., Principal, Edgar E. Harper, Vice Principal, Lee School, Miss Margaret Law, Principal, Miss Virginia E. Clarkson, Vice Principal.

The Superintendent then renewed his suggestion about the conditional election of assistant teachers, but the Board proceeded immediately to elect, with the following result:

Washington—Id. Miss Sallie Yates; 2d, Miss Fannie A. Wilson; 3d, Miss Mary J. Walsh; 4th, Mrs. Virginia Baggott.

Mr. Wheat then moved that the 2d assistant teacher of Lee School be elected conditionally, to be employed only if the Superintendent should think her services needed, but the chair ruled the motion out of order at that stage of the proceedings, and the election proceeded.

Mr. Mankin having declined a re-election as 1st assistant in Lee School.

Mr. Wheat nominated Miss Fannie L. Mills, now teacher of Ruffner School, in the county, who was a teacher of very high grade, and would be a great acquisition to our teaching force.

Mr. Wm. F. Carne nominated Miss Jennie K. Shay; she had been a public school teacher in the city for more consecutive years than any other having come into the system with the old Washington School. He would not have pressed her promotion had he not perceived an intention to drop her, which he thought both impolitic and unjust. No teacher could feel safe if, after years of faithful service, she was liable to be dropped whenever a trustee had a friend he desired to get in. The president would be a bad one.

Mr. Wheat said he was satisfied only by a desire for the public interest; did Miss Shay stand as high as Miss Mills on examination, he would not press the latter for the place.

Mr. Witmer favored Miss Mills' election.

The Superintendent, in reply to a question of Mr. Wheat, as to what was the use of examinations if the Board was not to be guided by them in its choice, remarked that the only true way to judge of a teacher's qualifications was to see her teach. If the members of the Board would visit more frequently they could judge for themselves who ought to be promoted or retained. Examinations were not correct criteria in the matter for two hours of fifteen had just passed an examination in the school of which he was principal, higher than almost any teacher had done, and with the very same questions, and nine more sets of questions on higher branches added; yet he evidently could not commission them as teachers.

Mr. Snowden nominated Miss Margaret Wilson, and the Superintendent said she was an old teacher, whose school was being depleted by the public schools, and that he thought she merited the favorable consideration of the Board from that fact.

Mr. Burke nominated Miss Margaret McCarthy, who had had charge of the school during Miss Mankin's disability. On balloting, the vote stood: For Miss Mills, 6; for Miss Shay, 3; for Miss Wilson, 1. So Miss Mills was declared elected, and Miss Shay was then re-elected 2d assistant.

The colored teachers were then re-elected as follows:

Principals: Wm. F. Powell, Snowden School; Sarah A. Gray, Hallowell School.

Assistants: John F. Parker and Carrie Claggett, Snowden School; Jane A. Crouch and Helen Sims, Hallowell School.

All the elections were unanimous except that of Miss Mills.

The following janitors were then unanimously re-elected, viz:

Washington: Mrs. Martha J. Clements, Mrs. Julia Jennings; Lee: Mrs. Mary Schuman, Mrs. Olivia Love, Mrs. Annie Garrett; Snowden: Alexander Conway; Hallowell: John Fields.

On motion of Mr. Whittington, the Superintendent was authorized to procure the necessary registers, &c., for the next session, and, at a little before ten, the Board adjourned.

He replied "nothing," but was told that time was money, and that the laborer was worthy of his hire, and when bidding them good by had something slipped into his hand, which, from its feel and the manner in which it was given, he supposed was gold, but which, upon examination, proved to be a three cent piece. The steward of the city offices in the market house showed a gentleman, also from the north, through that building a day or two ago. At the completion of the examination he was asked by the visitor if a drink could be gotten near by that would not kill, and having pointed out a place where a drink could be survived, was made highly indignant by the remark, "Well, I'll try it."

For a mile around Belmont nearly all the fences were blown down, admitting stock within the grain fields. The wheat and corn were also flattened out. In Morrow county, in the vicinity of Cardington, on Thursday and Friday the storm levelled fences and timber in all directions. Many valuable orchards were ruined. The loss in Franklin co., is estimated at from \$50,000 to \$100,000. The bottom lands were covered with water destroying the crops. The Newark, Somerset and Strasburg road suffered severely. Twenty-five miles of track were washed out and several bridges were destroyed. In Clinton county the grain in shock and that standing in the fields was alike prostrated, making it necessary to gather a great part of it by hand. In the southern portion of Greene county the wheat crop suffered. The estimated loss is from fifteen to twenty per cent. In other portions of the county the loss is considerably lighter. The weather is still showery and unless it clears up soon the wheat crop, which is dead ripe, will be greatly injured. In Muskingum county, Zanesville, Washington, Perry, Wayne and Knox townships suffered the most. The damage to the growing crops is not less than \$10,000 besides a heavy loss of timber. In the southern part of Butler county the rain did great damage to the crops. A large lot of timber was also blown down. In Shelby county, two-thirds of the wheat is sprouting very fast. In Dearborne county, the losses to crops will be far up in the thousands. The same report causes fear in Fayette county. **The Wreck of the Steamer Washington.**

NEW YORK, July 8.—Mr. Dale, Agent of the Inman line here, telegraphed last night the agents at Halifax to do everything for the passengers of the City of Washington regardless of expense. He says Captain Lockhead is an experienced commander and he cannot account for the vessel being so much out of her course. He does not know whether the vessel or cargo is insured. Purser Maine telegraphs from Liverpool, Nova Scotia, that the baggage and spare stores were safely landed as well as the passengers and crew. There was a dense fog from the time she left Queenstown. The City of Washington was the oldest of the steamers in the Inman service. She was built in the year 1855 at Glasgow, and was used as a French transport for 18 months during the Crimean war. She made her first voyage from Liverpool to Philadelphia in the year 1856, and on January 18th, 1857 she first arrived at this port. About four years ago she was lengthened and completely refitted, and a new set of engines were put in. Her new dimensions were as follows: Length over all 399, breadth of beam 40, depth of hold 25, gross tonnage 2,881 tons, builders measurement 2,801 tons. Her model was similar to other vessels of the line, being bark rigged. She had two cylinders 48 and 84 inches in diameter with a stroke of about five feet. Her horse power was 450. She had four decks and was divided into four water tight compartments. She was well supplied with boats and life saving apparatus. As the City of Washington was an extra boat to relieve regular steamers she carried no mail.
